

Task #	22-01	Date:	13 th Jan	Review Date:	May 22
	Meet:	Mill Land footpath			
	Summary:				
	Clear leaf debris/mud from path towards Bridge Street				
	Volunteers:	13			
	Time:	10:00		11:30	
	Weather:	Cold but sunny			

A wonderful start to the New Year – cold but sunny and a full team out in force to do a bit of leaf clearance from ‘our’ footpath.

The leaves seemed really late in coming down last year, so this task is a few weeks later than originally planned and as such much of the leaf debris had already been turned into mud along parts of the path. Most we were able to scrap off, being really careful not to remove too much gravel that we had only topped up last year, but in some parts, there is still areas of mud well trodden into the path.

Andy clearing away leaves from the slope between the footpath and the path to the play area

Steve and Nick trying to decide which of the tools works best

With the early start, it did seem a little chilly to begin with, but after 5 mins we were all feeling rather warm – especially where some of us could work in the sunshine!

After a short time, we finished our footpath and made our way towards Bridge Street clearing as much of the muddy leaf debris as we went. The steep paths coming down from Holbourne Close were cleared of leaf litter so hopefully a lot more manageable as the weather changes.

Chilly start in the shade for Bob and Honor, but we soon warmed up

Julie having to take off a couple of layers of clothing as the sun came out

Thanks to our team today:

Bob, Philip, Martin, Steve, Andy S, Nick, Soo (and her hat), Margaret, Honor, Sarah, Andy B, Julie

Next Task:

Thursday 10.00 27th January

Location: **The Moorings Jitty**
