

Task #	22-02	Date:	27 <sup>th</sup> Jan	Review Date:	May 22
	Meet:		The Moorings jitty		
	Summary:				
	Clear leaf debris along the jitty towards the railway bridge				
	Volunteers:		8		
	Time:		10:00	11:00	
	Weather:		Cool but sunny		

A much warmer day than we've recently been experiencing, so very pleasant to be outside especially with the sun out too. 8 volunteers today for one of our favourite jitties – this one is really well used, but so steep at the top, that it can be very slippery after rain and a cold spell when the leaves are still on the ground.

Starting at the top next to the bridge, the team cleared away some of the ivy but the main task was clearing all the leaf debris from off the path. Lots had built up with there being so many trees so there was plenty to do.

As well as sweeping all the leaves from the main footpath down to Bridge Street, we also cleared the leaves and a considerable build up of moss from on the bridge over the tracks.

Lastly, at the bottom we cleared away the mud build up around the edge to make it wider.

Thanks to the team today: (L-R)

Phil, Andy B, Julie, Steve, Andy NS, Stewart, Bob

### Next Task:

Thursday 10.00 10<sup>th</sup> February

Location: **Melton Road – opposite Millennium Park**
