

Task #	22-03	Date:	10 th Feb	Review Date:	
	Meet:		Millennium Park		
	Summary:				
	Clear debris from recent felling of perimeter trees				
	Volunteers:		13		
	Time:		10:00	12:00	
	Weather:		Cool but sunny		

Another bright, sunny but cool day for the team today – great to be outdoors.

We were at Millennium Park today clearing up the debris that was left after the perimeter trees were recently felled. The main area was around the roundabout on Melton Road which took a considerable time to cut back and clear up.

All the trimmings were put back just inside the boundary fence as it will all provide natural habitat for small mammals and insects before decaying away over the next few years. These large log piles can be further tidied if required in the next few weeks once they start to settle in place.

We also tidied the wildflower area in the corner before we made our way along Fishpool Way trimming and cutting back as we went.

Julie

Philip

Stewart & Liz

It was a hard task today with all the sawing, cutting and raking to do, but by clearing this away now, the grass will soon start to regrow.

Thanks Team – a really great effort all around!

Next Task:

Thursday 10.00 24th February

Location: **High Street Car Park**
