

Task #	22-13	Date:	16 th June	Review Date:	Oct 22
	Meet:		Buttermere		
	Summary:				
	Clear greenery from new hedgerow				
	Volunteers:		12		
	Time:		09:30	11:30	
Weather:		Hot and sunny			

A team of 12 volunteers were out early this morning clearing the new hedgerow area between Buttermere and Strancliffe Lane.

We planted the hedgerow last autumn and the young trees have mostly all survived but were swamped by bindweed, bramble, and nettles.

It took a while to find them all again but we managed it and also given the area a good chop back to give the saplings a fighting chance to get going again.

Special thanks to Helen and Dan for all their support today including well needed refreshments. Thank you all.

Just started finding the first saplings amongst the greenery

Taking a well-earned rest in what little shade there was

Finished the main section and it's beginning to look great

Thanks to the team today: (L-R) Bob, Stewart, Steve, Soo, Margaret, Philip, Andy, Julie, Ian, Karen and Dan

Next Task:

Thursday 09:30 30th June

Location: **Mill Lane footpath – play area**
