Great deal of effort all around today working at Nottingham Road on the site of the WI Garden.

We were asked to move the remaining plants and bulbs from the old garden around the area and remove the soil to ground level with grass seeds will be sown shortly.

Lots of Digging

Still more digging

New recruit

Almost there!

Finished - the levelled area.

The garden will be moved forward of the bench over the next few weeks and fresh planting added.

The new garden will then be easier to see as you drive or walk past.
