

Task #	21-15	Date:	19 <sup>th</sup> Aug	Review Date:	Jan 22	
	Meet:		Moorings jitty			
	Summary:					
	Clear of overgrowth of nettles/ivy upto railway bridge					
	Volunteers:		12			
	Time:		10:00		11:00	
	Weather:		Warm			

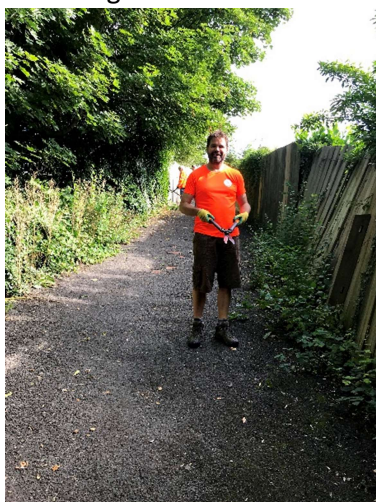

A full team out today to clear the bottom half of the path from the Moorings up and over the railway bridge. While most of us cleared the path, we were also able to do a fair bit of litter picking around the area too thanks to Liz and Honor.

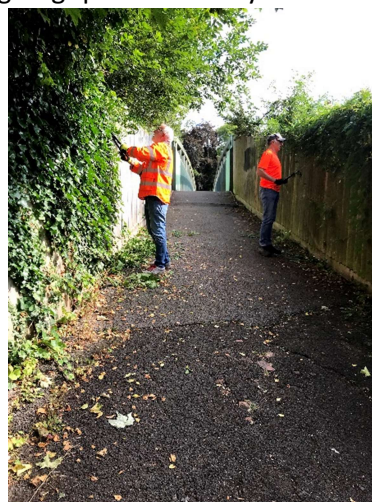

Starting at the bottom end, Soo and Margaret raking the weeds out.

Karen, also at the bottom of the path getting to grips with the ivy.

Russell at the top tacking the ever persistant suckers from the trees coming through

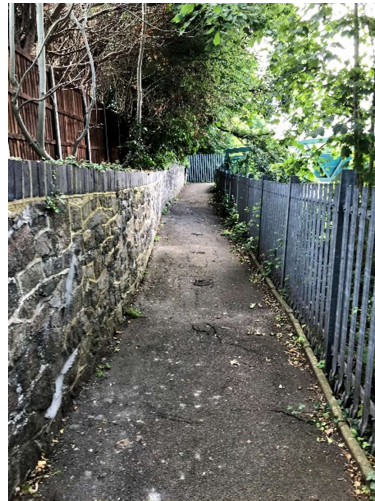

Mick and Steve also getting rid of some ivy.

Lots of the work we were going to do today had already been done.

At the bottom end of the path the home owner has cleared the area of the tangled mass of climbers that had taken over the wall. So much better – thank you.

At the top end, over the bridge, Network Rail closed the path last week to repair the walls along the path to the Rookery. They also removed the plants and brambles growing along the top and sides of the wall.

### **Next Task:**

Thursday 2<sup>nd</sup> Sept

Location: Cemetery, Cotes Road

**Thanks everyone – great work**

Sorry team, but I forgot to take the end of task team photo – so here's the list of those volunteering today – Thank you

**Karen, Steve, Andy, Liz, Mick, Pat, Soo, Honor, Margaret, Russell, and Bob**
