

**Location:** Strancliffe Lane jitties  
**Task #** 34  
**Date:** 18<sup>th</sup> December      **Review Date:** Apr 20  
**Map:**

Our final task of the year was the footpath running between Humphrey Perkins School and Strancliffe Hall. We've cleared this footpath a number of times already, sometimes the overgrowth and other times to clear the rubbish. This time we were able to do both. Lots of rubbish collected again that has blown around from the school playing fields, but we also cut back lots of ivy from the railings to make the path a little wider.

We cut back lots of bramble from the scrubs at the top end of the footpath closer to Buttermere Way, again making the path a little wider. The bramble will inevitably grow back in the spring, but it should be a little easier to manage each time will give it a cut back to ground level.

**Thanks to all the volunteers that have attended the tasks this past 12 months.**

**We have completed a total of 448 hours of work over 39 separate tasks including those undertaken as part of the Barrow Open Gardens event this year. Come wind, rain, and sunshine you have turned up week after week to make a real difference to our village.**

**Thank you.**
