

# Barrow upon Soar Station Adoption Group

**Sunday 3<sup>rd</sup> September**

Another hard days work at the station.

We moved some donated compost and topsoil down there today ready for flowers and plants going in next weekend. This will be in the areas between the steps and the shelter.

We also started preparing the new areas for planting from the shelter down to the end of the platform. The existing shale/soil was loosened and some weeding started before new topsoil is added over the next few months.

Thanks to David, Julie, Steve, Nick, Jane, and Andrew

**Date of next task: Sunday 24<sup>th</sup> September 10:00**
