

Barrow upon Soar Station Adoption Group

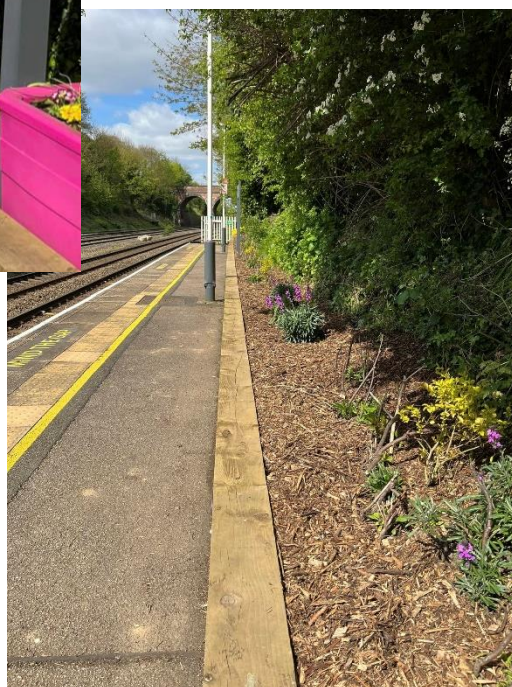

Sunday 21st April 2024

It took a while but we did it - well over 3 builders bags worth of woodchip has been added to the sleeper planters to help with reducing weeds as well as the amount of watering needed, but going up and down all those steps with heavy bags doesn't get any easier! Looking forward to more perennials being added over the next few months to really bring colour to the station.

Thanks also to Charnwood Borough Council and idverde UK for the donation of woodchip.

Thanks to the team today for all of your hard work: Linda, Steve, Karen, Anna, Jane, Honor and Julie.

Next task: Watering and Weeding each week until Autumn
